Goodbye 2021, Hello 2022.

Although the past year has been marked with seemingly unending crisis, we have so much to be thankful for - most of all YOU! We're thankful for all of our customers & partners, thank you for being a part of our journey thus far. Now, after that good dinner, it's back to business as usual for us here in Houston, Texas - our HQ!

As we wave goodbye to what will forever be remembered as the year of pandemics and vaccinations, what remains as a common element as we go into 2022 is the necessity to respond to customer needs at warp speed. We hope you enjoy gaining insights from this edition and ensure your ecommerce business is ready for 2022!

Top 7 Challenges in Product Data Management for Ecommerce

How can brands adapt to the future? What will define the consumer's path to purchase in the post-Covid19 world? How to meet consumer demand on the digital shelf? How to accelerate time to market and drive sales? How to accelerate the shift to a new normal as customers surge to digital channels? How to overcome product data management challenges for ecommerce success?

We believe that structured product information and efficient product data management is the answer to all the questions above. In this blog, we explore details of 7 such challenges and learn about StrikeTru's recommendations to address them for a smooth and profitable ecommerce project.
